REMARKS

Please enter the above formal amendments.

Amendments to Claims 40-45 Correct Informalities Without Affecting Claim Scope

During review of the allowed claims, Applicants' attorney noticed that allowed independent Claim 39 recites an "illumination apparatus". However, Claims 40-45, which depend from Claim 39, recited an "illumination module". This was a typographical error, as dependent claims are by their nature to be consistent with the claim from which they depend. Unfortunately this typographical error was only recently discovered.

The above amendment to Claims 40-45 corrects the typographical error in these claims, but does not have any effect on the scope of the claims.

Since the amendment remedies a purely formal issue, and does not have any impact on the scope of the claims, Applicants respectfully request that the Examiner enter the amendments to Claims 40-45 and pass the case on to issuance. Please contact Applicants' representative if there are any questions or problems with this application.

Respectfully submitted,
